Extinguishing media Water spray, carbon dioxide, foam, dry chemical.

Hazards from Combustion products

In the event of a fire the formation of hydrogen chloride, hydrogen cyanide, carbon monoxide and nitrogen oxides must be anticipated.

Precautions for fire fighters

Fire fighters should wear full protective clothing and self-contained breathing apparatus (AS1716:2000). Do not release contaminated water into the environment.

Section 6. Accidental Release Measures

Wear suitable protective clothing and boots. Prevent spill from entering drains, sewers or any body of water. Contain and absorb with sand, earth or inert absorbent material. Fill along with any contaminated material into sealable containers for disposal at an approved local waste disposal site. Clean affected area with an aqueous detergent and a small amount of water. On completion of clean-up remove and wash all protective clothing and equipment

with detergent and water. Any heavily contaminated clothing should be placed in a plastic garbage bag and placed in a sealable drum. Do not smoke, eat or drink during cleanup operation.
